## Intek's Easy Purchase Plan

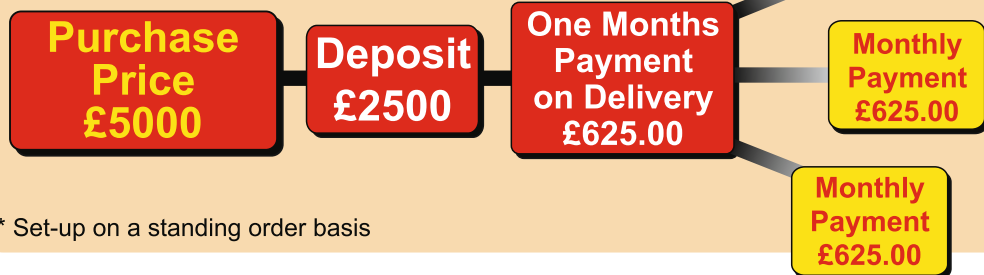

**Sick of having to pay for everything in one lump sum?**

**Need a new Background Music System,  
Sound Limiter, Big Screen, Plasma, or  
perhaps a CCTV system?**

**★ Interest Free ★**

**Easy Purchase Plan & How It Works** Example

\* Set-up on a standing order basis

Intek Electronics have designed this system especially for small businesses, where the burden of upgrading existing or new equipment such as sound systems, Big Screen or CCTV can sometimes be a major drain on cash flow. By spreading the payments over a three monthly period this eases the burden on cash flow, and allows you to purchase when you need it and not necessarily when funds are available.
